

To whom it may concern;

November 22,2011

This is a letter of recommendation for Dennis Firenze. Dennis has worked with me over the last several years on mutual opportunities and has always been diligent and dependable. Dennis is a true professional who is very organized and well prepared in all my interactions with him.

Dennis is also a student of the industry and puts in the time to learn new technology and how that applies to his job. When working on Modular Data Centers, Dennis researched the energy efficiency potential and how that would be applied to servers and storage. This led to qualifying for incentives from the Utility Companies and proved to be a solid strategy.

Dennis is a likable person and people like to work with Dennis.

Sincerely,

A handwritten signature in black ink that reads "Dan Gatti". The signature is written in a cursive, flowing style.

Dan Gatti
President and CEO
